Dear Resident/Business

April 2026

Road closure – Church Street, Wareham for essential gas main replacement

From **Monday 27 April to Friday 29 May**, SGN engineers will commence a programme of work to replace a section of gas main on Church Street in Wareham. These works are essential to ensure we can continue to maintain a safe and efficient gas supply to residents, businesses, and community and to avoid disruptive gas leaks in the future.

We will be replacing the old metal gas pipe with a new plastic pipe on Church Street between the junction of Church Green to the north of the junction to Church Lane.

Due to the location of the gas pipes in the road, for everyone's safety we'll need to have road closure in place on Church Street.

This road closure will mean:

- No through vehicle access past the closure in either direction – a short diversion route will be in place
- Resident/business vehicle access will be maintained - the access arrangements may change as works progress, the site team and signage will keep residents informed of access arrangements
- **Bus routes may be affected and on diversion** – please contact your bus provider for the latest updates/changes to service
- Bin collection days will remain unchanged unless you hear otherwise from your service provider

We understand these works and road closure will be disruptive for road users; please can we assure you our engineers will be working as quickly and as safely as possible to complete these works.

If you need to speak to us about these works, you can contact our Customer Service Team by email at Customer@sgn.co.uk or alternatively you can call them on 0800 912 1700, they will direct your enquiry to one of the team for response.

Thank you for your patience and understanding.

Yours faithfully

Adam
