OBJECTION – The Committee noted its objection to the current proposed location of the ATM but its support, in principle, of an ATM being installed considering the below matters. I) The Committee suggested siting the proposed ATM in the middle of the display window south of the main entrance (on the righthand side of the proposal illustration, rather than the left) and would be supportive in such a case. II) The proposed location is directly in line with a pedestrian crossing which would cluster pedestrians queuing to use the ATM where crossing users require access and restrict pavement space. III) The proposed location is (in part or in whole) over a windowed pavement light which may make users uncomfortable or feel exposed using the ATM above such a window.	Under officer consideration
